

SPECIAL PROJECT *An Event Tree*

In 1890, Phyllis' great-grandmother planted a tree to commemorate Idaho becoming a state. In 1990, the wind knocked the tree down. A lot of history happened while that tree grew. Each ring marks a year in the tree's life with year one being the ring in the very center.

Below you will find a slice of Phyllis' great-grandmother's tree showing all the rings. You will also find a list of 10 events in Idaho history. Write the date that event occurred on the line next to the event and draw a line from the event to the year it happened on the Event Tree.
